Max. dimensions: 40 x 19m

Plan: Figure H.5

Location: In a wide flat-bottomed valley.

Description: The cemetery is in two areas separated by a large cleared rectangular space used as a football field (Plate H.9). This extends right up to the tomb monuments and may have removed a number of them. The amount of stones piled along the margins of the field however, do not suggest that many monuments have been removed. Monuments are in a very poor state of preservation (Plate H.10) and their form and number is often unclear. All are aligned approximately east-west unless otherwise stated. The alignments fall into three groups.

east-west	1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 12
north west-south east	6, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 27, 28, 29?, 31, 32, 33, 35, 36, 37, 38
north east-south west	26, 30, 34, 39, 40

To the north east of the football field are what may be a few robbed out tumuli and there is another a little to the west.
